

I feel that Sinclair Broadcasting, by forcing a local station in my area (KGAN), to air political propaganda and calling it a documentary on the public air waves is endangering our democratic society.

Sinclair and KGAN are obliged by law to serve the public interest. If KGAN allowed an opposing view with equal time they would be showing fairness but they are not. They are trying to pass off propaganda as a documentary with objective reporting.

I feel that KGAN, by using propaganda, should be denied a renewal of their license during the current license review process.  
Thank you.
